

The Göteborg Opera's vision is to become one of the leading opera houses in Northern Europe. We are a modern and innovative opera house that distinguishes itself with professionalism and commitment to the arts. We present a broad repertoire of opera, dance, musicals and concerts, and are an important player in the development of the region. GöteborgsOperan AB is a state-owned company, which employs around 500 people full-time. We stage around 300 shows per year on our stages: the Main Stage, the Small Stage and throughout the region - to an audience of around 250,000. We have a turnover of around 380 million SEK, of which around 30 % is from our own resources. We are a diverse workplace with roughly the same number of male and female employees. The orchestra has 86 members and their musical director is Henrik Schaefer.
